

# Only 3 steps to get your own DIY incLOOsive! door hanger

1. Fold the sheet in the middle (see folding line!).
2. Glue the sides together to make it more stable.
3. Cut out the door hanger with scissors as indicated.

## incLOOsive!

...because toilets are for everyone.

## incLOOsive!

### This is how it works:

1. Find a public restroom (e.g. in a restaurant, café etc.) which is accessible without steps.
2. Fill in the name and the address of the location and check the boxes according to how the restroom is equipped.
3. Take two pics: One of the door hanger on the outside and one showing the inside of the restroom.
4. Send the two pics to [incloosive@wheelmap.org](mailto:incloosive@wheelmap.org), or share them directly on Facebook or Twitter using #incLOOsive! and #inKLOsiv!

Do you want to do more? Find the location on [Wheelmap.org](http://Wheelmap.org) and mark if the place and its restroom are wheelchair accessible or not.

incLOOsive! is a campaign by [Wheelmap.org](http://Wheelmap.org), supported by "Toiletten für Alle". Find further info on: [news.wheelmap.org/en/incLOOsive](http://news.wheelmap.org/en/incLOOsive)

Wheelmap is an online map for wheelchair accessible places, operated by the SOZIALHELDEN in Berlin. Everyone can join in and evaluate the accessibility of places and restrooms. The Wheelmap is available at [www.wheelmap.org](http://www.wheelmap.org) or as a free app for your smartphone.

In a "Toilet for All" there is a plank bed and a person lift for people with severe disabilities, enabling them to use the restroom. The "Leben pur" foundation is committed to creating more "Toilets for all" by reconstructing restrooms in Germany, starting with restrooms that are stepless, large and spacious.
